

1. Title

Sparse modeling in Geotechnical Engineering

2. Short Bio

Name: Takayuki Shuku

Title and Affiliation: Associate Professor, Graduate School of Environmental and Life Science, Okayama University

Bio: Takayuki Shuku is an Associate Professor at Okayama University, Japan. He obtained his BE and MS from Shimane University and his PhD degree from Okayama University. His main research interests include inverse analysis and machine learning in geotechnical engineering. He received the best paper award and the best young researcher award by the Japanese Geotechnical Society in 2013, the award for among the top five downloaded articles in Granular Matter during 2018.
